# January 2022 Newsletter

## HAPPY NEW YEAR

Welcome to 2022! Unfortunately for us 2022 hasn't had the kindest start. It has been a very tough couple of months here at Kalyna. It seems we have been in lockdown more than we have been out.

As a team we rallied around as only we know how to, to continue giving the best care for all of our residents. Kitchen staff served up those delicious meals, Lifestyle staff continued to make Zoom, Facetime, Skype and Phone calls to family members to ensure that they were all still connected, as well as making sure everybody had a visit with a chat or game to cure the boredom of not being able to see many other people. Admin staff were busy answering phones with a million different questions at a time, which was hard to comprehend at times. Care staff strived to give the best care possible, cleaners also doing a great job as they do each and every day; and all while enduring full PPE on some very warm and hot days, which is not easy to do. A big shout out to the management team. It is never an easy job trying to run a facility during an outbreak, I think you all did an amazing job.

We can all give ourselves a massive pat on the back for an outstanding job well done. You should all be very proud!

Now that we have are finally out of isolation and accepting visitors back into the facility again, Rapid testing is still required upon entry. Can we please ensure that *everyone* is abiding by Infection control policies, which includes wearing of an N95 mask and face shield, safe hand hygiene practices while in the facility. We are also encouraging family members to please book your visits *24 hours in advance* via the link provided. This is to ensure that we have enough Rapid tests available on the day, and that IPC staff can effectively work throughout the day and not be overwhelmed with families and friends who arrive.

If you have any queries, please don't hesitate in contacting us.

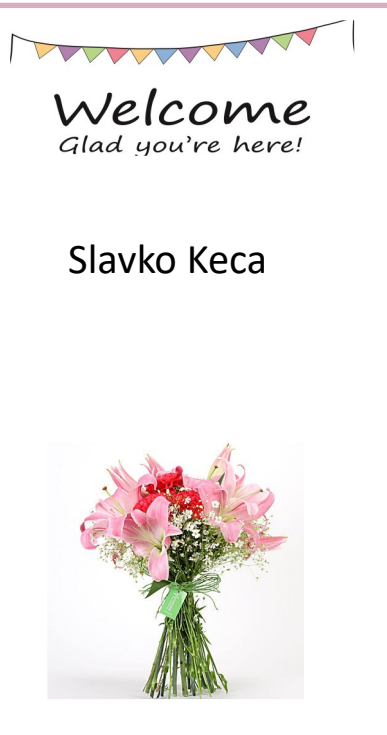

# UPCOMING EVENTS
